

# Straumann CARES® Centralized Solutions Centralized Milling

⑦ ⑧ Centralized Solutions

# Centralized Milling

**Straumann® milling centers, partner you can rely on:**

- Centralized milling facilities operate as an extension of your lab with advanced machinery and validated workflows
- Rely on our precision
- Benefit from our technical support
- Depend on our high quality
- Profit from our industrial milling center concept

# Createch milling services

**Createch Service** line workflow provides dental professionals a series of services:

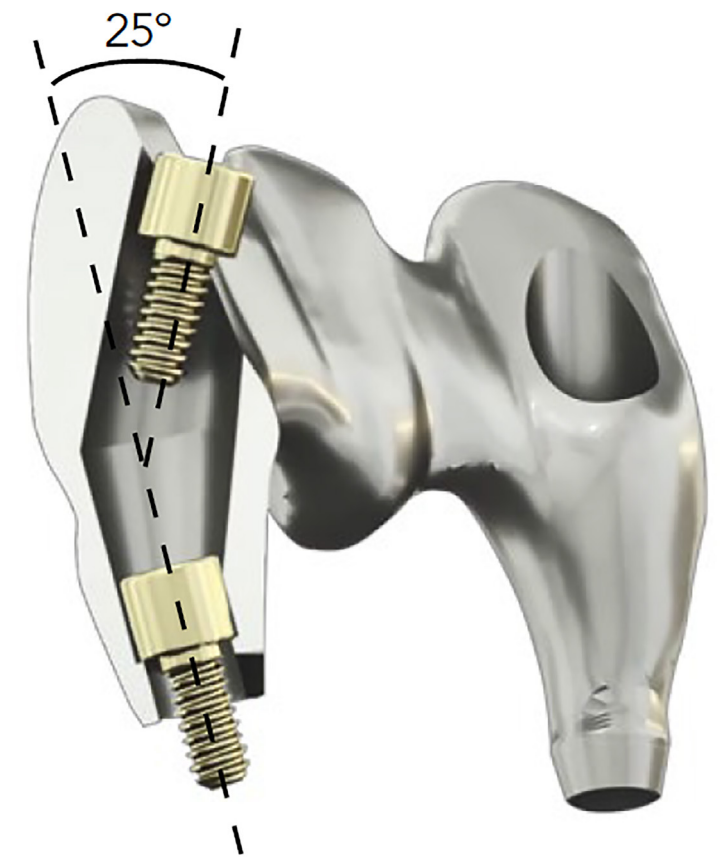

- Training and consultation for the laboratory
- Scanner optimisation
- Incorporation of our Createch solutions
- High precision milling

# Createch milling services

Createch Service line offers additional services:

- Angulation
  - Legal manufacturer of angulated bore
  - Theoretical maximum: 28°;  
Createch recommended limit 25°
- Fit guarantee\*

\*Only possible when physical model is sent to our facilities

⑦ ⑧ Centralized Milling

# CARES® Centralized Materials

A tailored material offering dedicated to efficient lab milling workflows.

## Available materials

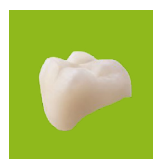

### GLASS-CERAMICS

Straumann®  
nIce®

IPS e.max®  
CAD

VITABLOCS®  
Mark II

VITABLOCS®  
TriLuxe Forte

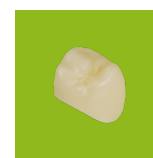

### ZIRCONIA

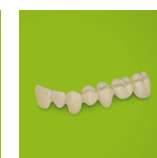

zerion® LT

zerion® ML

zerion® UTML

3M™ Lava™  
Plus

3M™ Lava™  
Esthetic

zerion® GI

Zirconium  
Dioxide for  
CARES®

### POLYMERS

JUVORA™  
PEEK

VITA® CAD  
Temp

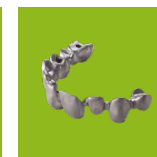

polycon® ae

polycon® cast

coron®

ticon®

Titanium  
and TAN for  
CARES®

### METALS

## Available indications

### TOOTH-BASED

Inlay

Onlay

Veneer

Partial crown

Vestibular  
veneering

Coping

Full-contour  
crown

Bridge

### ABUTMENT-BASED

Coping

Full-contour  
crown

Bridge/bar  
framework

Full-contour  
bridge

### IMPLANT-BASED

Abutment

Anatomically  
reduced abutment

Bridge/bar  
framework

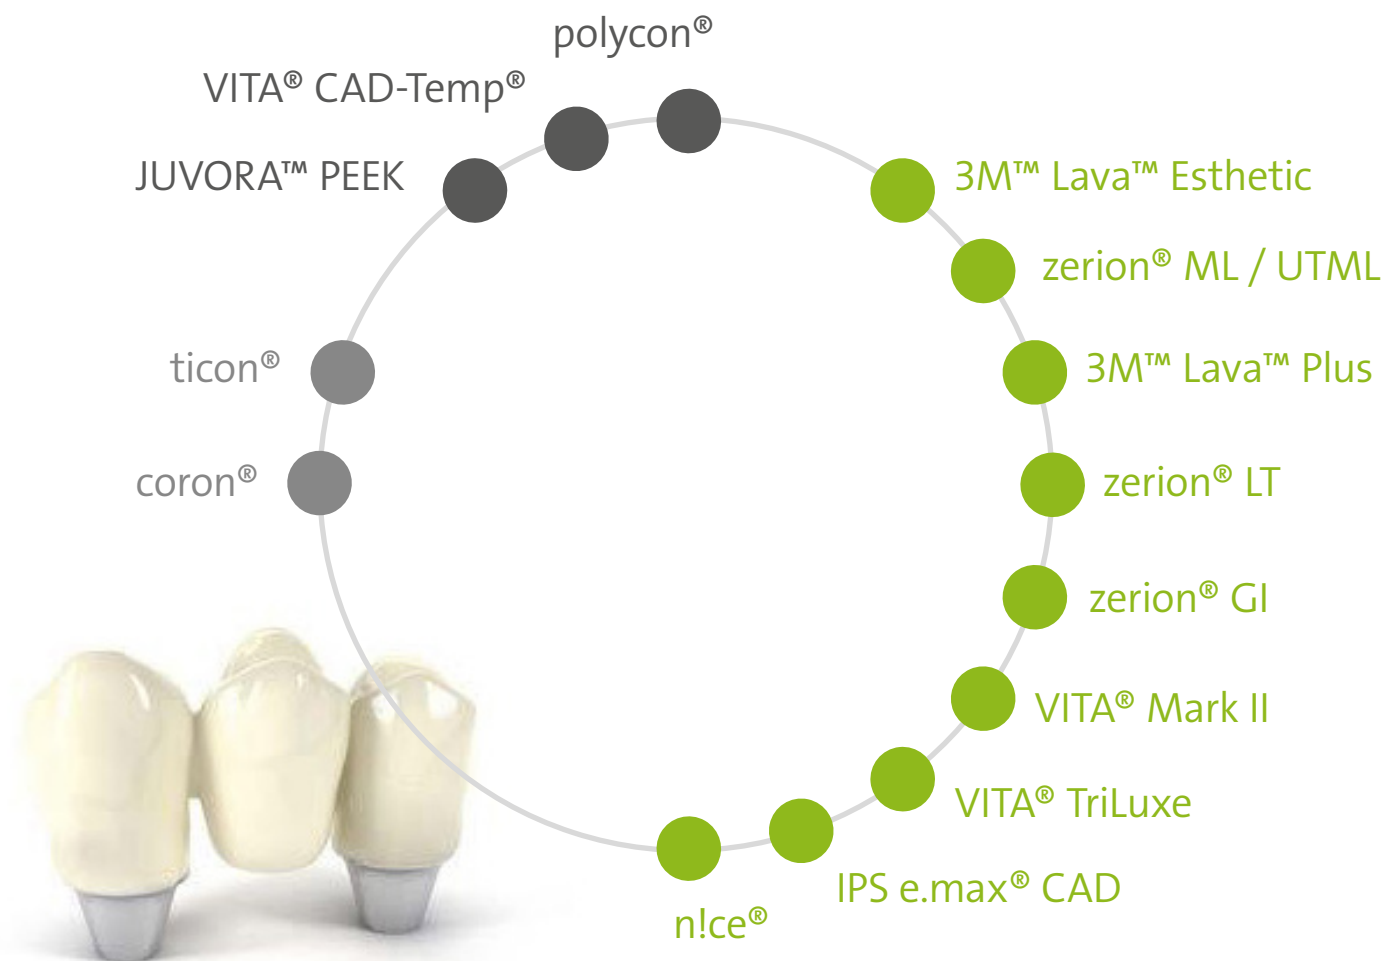

Anatomically  
reduced bridge

⑦ ⑧ Centralized Milling

# CARES® X-Stream™

Innovative one-step implant-based restoration solution providing high-efficiency gains and cost-effective prosthetic options.

● ceramic    ● metal    ● polymers & others

⑦ ⑧ Centralized Milling

# CARES® X-Stream™

Innovative one-step implant-based restoration solution providing high-efficiency gains and cost-effective prosthetic options.

Customized abutments for  
single tooth and up to full-arch:

ZrO <sub>2</sub> , Ti, TAN, coron®
Ti
ZrO <sub>2</sub> , Ti, TAN, coron®

Ti-Bases for single tooth restoration:

Variobase® (straight and angled)
Ti-Base (straight)
Ti-Base (straight)

Ti-Bases for up to full-arch restorations:

Variobase® for bridge/bar
Variobase® copings for SRA

# Straumann CARES® Centralized Solutions Centralized Printing

# 3D Printed Models & Surgical Guides

Reliable and fully validated workflow, precision and quality

- Precision:  
granted by the Straumann®  
Centralized Production
- Efficiency:  
fast and efficient delivery
- Convenience:  
freedom of mind, no need to think  
about the production phase
